**UCSB is committed to providing a quality learning environment.** Faculty, TAs, and staff will often be the first to encounter a student who is in distress. Encouraging and helping the student to seek assistance with the appropriate campus and community resources are key. UCSB has multiple professionals poised to respond to distressed students. These staff members include social workers, psychologists, psychiatrists, and coordinators of student mental health services. Student mental health coordination services is a readily accessible single point of contact for staff, faculty, and students who are concerned about a distressed student. The coordinators will consult about a student, provide referrals to campus departments, develop action plans, and follow up with students, staff, and faculty as appropriate.

**Support for faculty and staff after working with a distressed student:** Academic & Staff Assistance Program, Human Resources, 893-3318
